10 More Benefits Linked to Cat IP

- 1. Frees up valuable purchasing staff time** for other more important, demanding duties, such as sourcing, supplier negotiations and contracting.
- 2. Reduces or eliminates returned parts and re-orders** because Cat IP search query tools identify and note correct replacement part numbers.
- 3. Includes new, Cat Reman, Cat Classic, dealer exchange and used parts** with easy online access to information and 24/7 ordering for all.
- 4. Sends order acknowledgments** to confirm orders and keep you informed about their status.
- 5. Allows you to set up user preferences** that suit your business goals, such as eliminating process steps, speeding up ordering, etc.
- 6. Lets you create frequent order lists** that save you time (e.g., no need to re-type parts you're ordering) when you place repeat orders.
- 7. Eliminates time spent by other team members**, including your shipping/receiving staff, who won't waste time dealing with the wrong parts.
- 8. Reduces equipment downtime** caused by incorrect orders, e.g., inadvertently ordering the wrong parts.
- 9. Provides online access to parts and service technical information**, such as Planned Maintenance (PM) Checklists and Service Information System (SIS) information.
- 10. Saves money by reducing more costly off-contract spending.**
